With today's business challenges of document processing such as; check fraud, employee/patient privacy, and workflow efficiency, mail processing and fulfillment environments are confronted with implementing solutions to address both automation and security to meet customer demands.

To meet these evolving requirements, the **PSMailers** product team introduces the **15K High Volume Pressure Seal System**. The **15K** is an out of the box solution providing for a quick setup, quiet operation, and offers user friendly controls returning the simplicity to mail processing. The **15K's** innovative design offers an affordable desktop solution that seals as it folds pressure seal documents. Capable of processing up to 22,000 forms per hour, the **15K** incorporates bottom feed technology for continuous throughput increasing your organizations productivity, while reducing operational costs. This remarkable unit offers five standard fold patterns (Z, EZ, C, EC, and V), custom folds, and forms up to 17" in length including return envelope applications. The **15K** also features our new indexing feed system to reduce maintenance and our high capacity conveying systems to increase off load capacity to 1000 documents. The **PSMailers 15K** is completely manufactured in the United States and its durability and value are unmatched in the industry.

Applications:

- Checks/Direct Deposits
- Collection Notices
- Grade Reports
- Invoice & Statements
- Medical Reports
- PIN mailers
- Tax Forms
- Tax Bills
- Utility Bills
