

PRESSURE SEAL EQUIPMENT: AIS

Standard Features:

- Automatic Fold Plates
- 9 Programmed Folds, 2 Custom Folds
- Variable Speed Control up to 11,000 forms per hour
- Automatic Shutoff
- Patented Pressure Seal Technology
- Bottom Feed System allows the user to add forms while processing
- 36" Attached Conveyor Output
- True Doubles Detection Jam Prevention
- Touch Screen Manual & Batch Mode Counter
- Solid Stainless Steel Rolls
- Jog Reverse
- Up to 17" Document Processing

Benefits:

- Perfect for Long Run Applications
- Secure Document Processing
- Reduce Costly Reruns
- Improved Productivity
- Simplicity of Design
- Easy to Learn & Operate
- Compact and Durable without Compromising Throughput.

PSMailers sets the industry standard for quality and product features with the introduction of its first unit with automatic fold plates the PSMailers AIS™. A simple touch of the new interactive screen the user selects one of 9 pre-programmed or 2 custom fold settings for automatic fold plate adjustment, eliminating the set up time required with competitive products. The users settings are maintained even when powered off, so the user is ready to load and process at any time. No more homing when powered on to remember the last fold plate location or loss of your custom fold plate adjustments. That's right, we've taken the guess work out of post document processing! Utilizing the latest in automation technology, the PSMailers AIS™ is capable of processing up to 11,000 forms per hour with standard features which include True Doubles Detection for feed jams prevention, an integrated 36" conveyor for sequential forms processing, manual/batch count selections, and automatic shutoff. We've simplified maintenance with our patented cleaning system that gathers excess toner, paper dust, and glue. Bottom feed technology allows the user to add documents to the stack during processing increasing throughput and improving productivity, while reducing operational costs. Leveraging PSMailers patented pressure seal technology the PSMailers AIS™ provides a tighter seal to protect the integrity of document processing and offers the same unlimited duty cycle only found in the quality of the PSMailers product family.

Applications:

- Checks/Direct Deposits
- Collection Notices
- Grade Reports
- Invoice & Statements
- Medical Reports
- PIN mailers
- Tax Forms
- Tax Bills
- Utility Bills
